2022 Rosé of Tannat

— - Vintage

2022 began as a rainy, humid growing season. The battle was to keep vineyard canopies healthy and disease-resistant until the weather pattern lifted and ripening was possible. Due to this delay, sugar levels were low - but flavors were excellent. The resulting wines are light and fresh, valuable as young wines which should age gracefully.

— - Vineyard

The 2022 Rosé of Tannat showcases fruit from our friends at Horton Vineyards. Dennis Horton planted the first of his 55 acres in 1988. Known for his willingness to experiment with varietals, he is generally credited with bringing Tannat to Virginia.

— - Winemaker's Notes

Best known as a deeply colored, tannic varietal, Tannat makes a delicate and fruity rosé when pressed immediately off its skins. Rich watermelon-green apple favors are complimented by a vibrant, well-integrated acidity.

— - Harvest Date: September 21, 2022

Technical Notes

Varietal Content: • 100% Tannat •

AVA: Virginia

Fermented & aged sur lie in stainless steel

End pH: 3.31

ABV: 12.5%

Bottled: January 27, 2023

Case Production: 400

Release Date: March 30, 2023

SRP: \$22.99
